### **Educational Objectives**

- 1) Understand the basic pathophysiology of TAO
- 2) Be aware of the current therapeutic landscape for TAO
- 3) Understand the mechanism for Teprotumumab effectiveness in TAO
- 4) Be able to select appropriate patients for Teprotumumab therapy

*Ophthalmology Clinical Rounds consist of a 1.5 hour lecture time by faculty and invited speakers who focus on new advances in the clinical and basic science fields of Ophthalmology. Emphasis is placed on contemporary techniques of diagnosis and medical/surgical therapy. The sessions provide a forum for group discussion of difficult or interesting diagnostic/management problems encountered by the specialist. Stony Brook University is committed to creating a welcoming and nurturing environment that embraces diversity, inclusion, and equity.*

**Continuing Medical Education Credits:** The School of Medicine, State University of New York at Stony Brook, is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The School of Medicine, State University of New York at Stony Brook designates this live activity for a maximum of 1.5 AMA PRA Category 1 Credit(s)<sup>™</sup>. Physicians should only claim the credit commensurate with the extent of their participation in the activity.

**Disclosure Policy:** All those in control of CME content are expected to disclose any relevant financial relationship with a commercial interest (defined as any entity producing, marketing, reselling, or distributing health care goods or services consumed by, or used on, patients) that relates to the content that will be discussed in the educational presentation. All commercial relationships that create a conflict with the planners, speakers, authors' control of content must be resolved before the educational activity occurs.
